Existing Loan Details - Tesla Inc. (CIN: C0278187)

tesla

Prepared on 2026-07-18T13:43:39

1. Introduction

This document outlines the existing loan facilities availed by Tesla Inc. (CIN: C0278187), a leading manufacturer of electric vehicles, energy storage systems, and renewable energy solutions, headquartered at 1 Tesla Road, Austin, Texas, 78725, USA. The details provided herein are accurate as of July 18, 2026, and are intended to support the credit underwriting process for the requested limit of $25,000,000.

Tesla Inc. maintains a robust financial profile with a revenue of $96,774,000, EBITDA of $15,000,000, and a net worth of $60,000,000. The company’s existing loan obligations are structured to align with its operational and strategic objectives, ensuring liquidity and financial flexibility.

2. Summary of Existing Loan Facilities

As of July 2026, Tesla Inc. has the following active loan facilities with total outstanding principal of $12,500,000. These facilities are managed in compliance with the company’s financial covenants and repayment obligations.

Lender	Loan Type	Original Amount ($)	Outstanding Principal ($)	Interest Rate (%)	Maturity Date
Bank of America	Term Loan	5,000,000	3,200,000	4.5	2028-12-31
JPMorgan Chase	Revolving Credit Facility	8,000,000	5,300,000	3.8	2027-06-30
Goldman Sachs	Equipment Financing	3,000,000	2,000,000	5.0	2029-03-31
Wells Fargo	Real Estate Loan	4,000,000	2,000,000	4.2	2030-09-30

3. Loan Purpose and Utilization

The existing loan facilities have been utilized for the following purposes, supporting Tesla’s growth and operational efficiency:

- **Term Loan (Bank of America)**: Funded the expansion of Gigafactory Texas, including machinery, automation systems, and workforce scaling initiatives. The facility is secured against the fixed assets of the Gigafactory.

- **Revolving Credit Facility (JPMorgan Chase)**: Provides working capital to manage inventory, supplier payments, and operational expenses. The facility is unsecured and subject to quarterly financial covenant reviews.

- **Equipment Financing (Goldman Sachs)**: Financed the acquisition of advanced manufacturing equipment for battery production lines. The equipment serves as collateral for this loan.

- **Real Estate Loan (Wells Fargo)**: Used for the acquisition and development of a new research and development facility in Palo Alto, California. The property is pledged as collateral.

4. Repayment Schedules

The repayment schedules for the existing loan facilities are as follows:

- **Term Loan (Bank of America)**: Quarterly installments of $250,000, with a balloon payment of $1,200,000 due at maturity on December 31, 2028.

- **Revolving Credit Facility (JPMorgan Chase)**: Interest-only payments on the drawn amount, with the full principal due at maturity on June 30, 2027. The facility allows for partial repayments and redraws as needed.

- **Equipment Financing (Goldman Sachs)**: Monthly installments of $55,555, with the final payment due on March 31, 2029.

- **Real Estate Loan (Wells Fargo)**: Quarterly installments of $125,000, with the remaining principal due at maturity on September 30, 2030.

5. Collateral and Security

The following assets have been pledged as collateral for the existing loan facilities:

- **Term Loan (Bank of America)**: Fixed assets of Gigafactory Texas, including land, buildings, and machinery, with a net book value of $15,000,000 as of July 2026.

- **Equipment Financing (Goldman Sachs)**: Specific manufacturing equipment with a net book value of $3,500,000.

- **Real Estate Loan (Wells Fargo)**: Palo Alto R&D facility, appraised at $6,000,000 in June 2026.

The Revolving Credit Facility (JPMorgan Chase) is unsecured but subject to financial covenants, including a minimum EBITDA of $12,000,000 and a debt service coverage ratio of 1.5.

6. Financial Covenants and Compliance

Tesla Inc. is required to comply with the following financial covenants for its existing loan facilities:

- **Minimum EBITDA**: $12,000,000 (quarterly review).

- **Debt Service Coverage Ratio (DSCR)**: Minimum of 1.5 (calculated as EBITDA divided by total debt service obligations).

- **Current Ratio**: Minimum of 1.2 (calculated as current assets divided by current liabilities).

- **Leverage Ratio**: Maximum of 3.0 (calculated as total debt divided by EBITDA).

As of July 2026, Tesla Inc. is in full compliance with all financial covenants. The company’s EBITDA of $15,000,000 and net worth of $60,000,000 provide a strong buffer against covenant breaches.

7. Key Relationships and Dependencies

Tesla Inc.’s existing loan facilities are integral to its relationships with key customers and suppliers. The company’s ability to meet its repayment obligations is supported by its diversified revenue streams and strategic partnerships:

- **Customers**: Amazon.com, Inc., Ford Motor Company, General Motors Company, Apple Inc., Uber Technologies, Inc., and Lyft, Inc. contribute to over 70% of Tesla’s revenue, ensuring stable cash flows.

- **Suppliers**: Panasonic Corporation, CATL, LG Chem Ltd., BHP Group, and Albemarle Corporation are critical to Tesla’s supply chain, with long-term contracts in place to secure raw materials and components.

The company’s directors, including Elon R. Musk, Robyn M. Denholm, and Ira Ehrenpreis, oversee financial strategies to maintain liquidity and creditworthiness.

8. Conclusion

Tesla Inc. (CIN: C0278187) maintains a disciplined approach to debt management, with existing loan facilities structured to support its operational and strategic goals. The company’s strong financial performance, compliance with covenants, and robust collateral position it favorably for the requested credit limit of $25,000,000. This document, in conjunction with previously submitted materials, provides a complete view of Tesla’s credit profile for underwriting assessment.
