1. Corporate Headquarters

Microsoft Corporation's global headquarters is located at One Microsoft Way, Redmond, WA 98052, USA. The campus spans approximately 500 acres and comprises over 120 buildings, including office spaces, research labs, data centers, and recreational facilities. The property is owned in fee simple by Microsoft, with a current assessed valuation of \$12.5 billion as of the 2026 King County tax assessment.

The Redmond campus serves as the primary operational hub for Microsoft's executive leadership, product development, and corporate functions. The site includes state-of-the-art infrastructure, including redundant power supplies, high-speed fiber-optic networks, and advanced security systems compliant with U.S. federal and state regulations.

Property Attribute	Details
Address	One Microsoft Way, Redmond, WA 98052, USA
Ownership Status	Owned (Fee Simple)
Total Area	500 acres
Number of Buildings	120+
Assessed Valuation (2026)	\$12.5 billion
Primary Usage	Corporate Headquarters, R&D, Data Centers
Zoning Classification	Commercial (Technology Campus)

2. Data Center Portfolio

Microsoft operates a global network of data centers to support its cloud computing, AI, and enterprise services. As of July 2026, the company owns and operates 60+ data centers across 20 countries, with a combined investment exceeding \$50 billion. Key facilities are strategically located in the USA, Europe, and Asia to ensure low-latency access and compliance with regional data sovereignty laws.

The data centers are designed to meet Tier IV standards, ensuring 99.995% uptime and redundancy across power, cooling, and network infrastructure. Microsoft's data center strategy emphasizes sustainability, with 70% of facilities powered by renewable energy sources as of 2026.

Number of Data Centers	Key Locations	Ownership Status	Renewable Energy %
10	Quincy (WA), Boydton (VA), San Antonio (TX), Chicago (IL)	Owned/Leased	85%
15	Dublin (Ireland), Amsterdam (Netherlands), London (UK), Berlin (Germany)	Owned/Leased	75%
12	Singapore, Tokyo (Japan), Sydney (Australia), Shanghai (China)	Owned/Leased	60%
2	São Paulo (Brazil), Johannesburg (South Africa)	Leased	50%

3. Research and Development Facilities

Microsoft's research and development (R&D) facilities are critical to its innovation pipeline, focusing on AI, quantum computing, and next-generation software. The company owns and operates 15 dedicated R&D campuses worldwide, with the largest concentration in the USA, followed by India, Israel, and the UK.

The Redmond R&D campus (Building 99) is the largest, housing over 5,000 researchers and engineers. Other notable facilities include the Microsoft Research Lab in Cambridge (UK), the AI & Research Group in Hyderabad (India), and the Quantum Computing Lab in Santa Barbara (CA).

Facility Name	Location	Focus Areas	Ownership Status	Employee Capacity
Building 99	Redmond, WA, USA	AI, Cloud Computing, Quantum	Owned	5,000+
Microsoft Research Cambridge	Cambridge, UK	AI, Machine Learning, Algorithms	Owned	500+
Microsoft Research India	Hyderabad, India	AI, Data Science, Localization	Owned	1,200+
Quantum Computing Lab	Santa Barbara, CA, USA	Quantum Algorithms, Hardware	Leased	200+
Microsoft Research Asia	Beijing, China	AI, Computer Vision, NLP	Leased	800+

4. Leased Office Spaces

In addition to owned properties, Microsoft leases office spaces in major global cities to support sales, marketing, and regional operations. As of July 2026, the company leases approximately 10 million square feet of office space across 50+ countries. Lease agreements are structured with terms ranging from 5 to 15 years, with renewal options aligned to business growth projections.

Key leased properties include the Microsoft Technology Center in New York (NY), the Sales and Support Hub in London (UK), and the Asia-Pacific Headquarters in Singapore. Lease obligations are disclosed in Microsoft's annual 10-K filings and are compliant with U.S. GAAP and IFRS standards.

Location	Leased Area (sq. ft.)	Primary Usage	Lease Term	Annual Lease Cost (USD)
New York, NY, USA	350,000	Sales, Customer Support	10 years (2022-2032)	\$42 million
London, UK	280,000	EMEA Sales, Marketing	12 years (2021-2033)	\$38 million
Singapore	220,000	Asia-Pacific HQ, R&D	15 years (2020-2035)	\$30 million
Tokyo, Japan	180,000	Japan Sales, Localization	8 years (2023-2031)	\$25 million
Munich, Germany	150,000	EMEA Cloud Operations	10 years (2024-2034)	\$20 million

5. Property Valuation and Financial Commitments

Microsoft's real estate portfolio is a significant asset on its balance sheet, with a combined book value of \$28.5 billion as of June 30, 2026. The valuation includes owned properties, capitalized lease assets, and ongoing construction projects. The company employs third-party appraisers to conduct annual valuations, ensuring compliance with U.S. GAAP and SEC reporting requirements.

As of July 2026, Microsoft has committed to \$3.2 billion in future lease payments for its global office spaces, with \$1.8 billion due within the next five years. These commitments are disclosed in the company's financial statements and are factored into credit evaluations by financial institutions.

Category	Book Value (USD)	Annual Depreciation (USD)	Future Lease Commitments (USD)
Owned Properties	\$22.1 billion	\$1.1 billion	N/A
Capitalized Lease Assets	\$4.3 billion	\$320 million	\$3.2 billion (Total)
Under Construction	\$2.1 billion	N/A	N/A
Total	\$28.5 billion	\$1.42 billion	\$3.2 billion

6. Environmental and Regulatory Compliance

Microsoft's properties adhere to stringent environmental and regulatory standards, including LEED (Leadership in Energy and Environmental Design) certification for new constructions and major renovations. As of 2026, 85% of

the company's owned properties are LEED-certified, with a target of 100% by 2030.

The company complies with local zoning laws, building codes, and environmental regulations in all jurisdictions. Key compliance areas include waste management, water conservation, energy efficiency, and emissions control. Microsoft's sustainability initiatives are detailed in its annual Environmental Sustainability Report.

Compliance Area	Standard/Regulation	Compliance Status	Key Initiatives
Energy Efficiency	LEED, ENERGY STAR	85% LEED-certified	Smart lighting, HVAC optimization, renewable energy procurement
Water Conservation	Local/State Regulations	100% compliant	Rainwater harvesting, low-flow fixtures, water recycling
Waste Management	EPA, Local Laws	100% compliant	Zero-waste programs, recycling, e-waste disposal
Emissions Control	EPA, Paris Agreement	100% compliant	Carbon-neutral operations, Scope 1/2/3 emissions tracking

7. Insurance and Risk Management

Microsoft maintains comprehensive insurance coverage for its real estate portfolio, including property insurance, business interruption insurance, and liability coverage. Policies are underwritten by leading global insurers, with total coverage limits exceeding \$15 billion as of July 2026.

The company conducts annual risk assessments for all properties, evaluating exposure to natural disasters, cyber threats, and operational disruptions. Mitigation strategies include redundant infrastructure, disaster recovery plans, and partnerships with local emergency services.

Insurance Type	Coverage Limit (USD)	Key Insurers	Renewal Date
Property Insurance	\$10 billion	AIG, Chubb, Allianz	Annual (June 30)
Business Interruption	\$3 billion	Zurich, AXA, Liberty Mutual	Annual (June 30)
Liability Insurance	\$2 billion	Travelers, Berkshire Hathaway	Annual (June 30)
Cyber Insurance	\$500 million	Beazley, Hiscox	Annual (March 31)
