

Tesla Inc. - Credit Report & KYC Documentation

tesla

Prepared on 2026-07-18T13:43:39

1. Corporate Identification & KYC Compliance

This document serves as the official Know Your Customer (KYC) and credit report for Tesla Inc., a leading manufacturer of electric vehicles, energy storage systems, and renewable energy solutions. Tesla Inc. is incorporated in the State of Delaware, USA, under Corporate Identification Number (CIN) C0278187, with its registered address at 1 Tesla Road, Austin, Texas, 78725, USA. The company was incorporated in 2003 and operates primarily in the manufacturing sector, with a global footprint spanning North America, Europe, and Asia.

Tesla Inc. is registered with the Permanent Account Number (PAN) TESLA1234G and holds compliance with all applicable federal and state tax regulations in the USA. The company's GST Identification Number (GSTIN) is not applicable (N/A) as it operates under the USA tax framework. This report confirms Tesla's adherence to KYC norms, including verification of corporate identity, directorship, and legal standing as of July 18, 2026.

Identifier	Value
Corporate Identification Number (CIN)	C0278187
Permanent Account Number (PAN)	TESLA1234G
GST Identification Number (GSTIN)	N/A
Registered Address	1 Tesla Road, Austin, Texas, 78725, USA
Incorporation Year	2003
Industry	Manufacturing (Electric Vehicles & Energy Solutions)

2. Credit Score & Risk Assessment

Tesla Inc. has been assigned a credit score of ****AA-**** by leading credit rating agencies, reflecting its strong financial health, consistent revenue growth, and robust market position. The score is derived from an evaluation of Tesla's financial statements, repayment history, liquidity ratios, and industry-specific risk factors. As of July 2026, Tesla's creditworthiness is categorized as ****Low Risk****, with no history of defaults or material credit events.

Key factors contributing to Tesla's credit score include its diversified revenue streams, high EBITDA margins (15.5% for FY 2025-2026), and strong net worth of \$60 billion. The company's debt-to-equity ratio stands at 0.45, indicating a balanced capital structure. Additionally, Tesla's long-term relationships with blue-chip customers (e.g., Amazon, Apple, Ford) and strategic suppliers (e.g., Panasonic, CATL) further mitigate credit risk.

Metric	Value (as of July 2026)
Credit Score	AA-
Risk Category	Low Risk
Revenue (FY 2025-2026)	\$96.774 billion
EBITDA (FY 2025-2026)	\$15 billion
Net Worth	\$60 billion
Debt-to-Equity Ratio	0.45
Current Ratio	1.8

3. Financial Performance & Liquidity Analysis

Tesla Inc. demonstrates robust financial performance, underpinned by its leadership in the electric vehicle and clean energy sectors. For the fiscal year 2025-2026, Tesla reported a revenue of \$96.774 billion, with an EBITDA of \$15 billion, reflecting a 12% year-over-year growth in profitability. The company's net worth stands at \$60 billion, supported by a diversified asset base, including manufacturing plants, intellectual property, and strategic investments.

Liquidity analysis indicates Tesla's strong ability to meet short-term obligations. The current ratio of 1.8 and quick ratio of 1.2 suggest ample liquidity, while the company's cash reserves of \$22 billion provide a buffer against market volatility. Tesla's working capital management is further strengthened by efficient inventory turnover (10.2x) and a disciplined approach to capital expenditure (CapEx).

Financial Metric	Value (FY 2025-2026)
Revenue	\$96.774 billion
EBITDA	\$15 billion
Net Profit Margin	10.3%
Current Ratio	1.8
Quick Ratio	1.2
Cash Reserves	\$22 billion
Inventory Turnover	10.2x

4. Repayment History & Existing Loan Obligations

Tesla Inc. maintains an impeccable repayment history, with no instances of late payments or defaults on its existing loan obligations. As of July 2026, Tesla's total outstanding debt stands at \$12.5 billion, primarily comprising long-term bonds and term loans with an average interest rate of 4.2%. The company's debt servicing coverage ratio (DSCR) is 3.8, indicating strong capacity to service debt from operating cash flows.

Key existing loan facilities include a \$5 billion revolving credit facility with a consortium of banks (maturity: 2028) and \$7.5 billion in senior unsecured notes (maturity: 2030-2032). Tesla's loan agreements include standard covenants, such as maintaining a minimum interest coverage ratio of 3.0 and a maximum debt-to-EBITDA ratio of 2.5. The company has consistently complied with all covenants, as evidenced by its audited financial statements.

Loan Facility	Amount (\$ billion)	Interest Rate	Maturity	Collateral
Revolving Credit Facility	5.0	LIBOR + 1.5%	2028	Unsecured
Senior Unsecured Notes	7.5	4.2% (avg.)	2030-2032	Unsecured
Term Loan	2.0	3.8%	2027	Equipment & IP

5. Legal & Regulatory Compliance

Tesla Inc. adheres to all applicable legal and regulatory requirements in the jurisdictions where it operates. The company is compliant with USA federal and state laws, including the Securities Exchange Act of 1934, the Sarbanes-Oxley Act, and environmental regulations such as the Clean Air Act. Tesla's corporate governance framework is robust, with an independent board of directors and adherence to best practices in transparency and accountability.

Key compliance highlights include:

- ****Tax Compliance****: Tesla has filed all required income tax returns (FY 2021-2022 to FY 2025-2026) and GST returns (where applicable) without material discrepancies. The company's tax filings are audited annually by Deloitte & Touche LLP.

- **Environmental Compliance**: Tesla holds all necessary permits for its manufacturing facilities, including emissions compliance under the Environmental Protection Agency (EPA) guidelines. The company has not faced any material environmental penalties in the past five years.

- **Corporate Governance**: Tesla's board includes independent directors (e.g., Robyn M. Denholm, James Murdoch) and complies with NASDAQ listing requirements. The company conducts annual audits of its internal controls and financial reporting processes.

Compliance Area	Status	Key Details
Income Tax Compliance	Fully Compliant	Audited returns for FY 2021-2026 filed
GST Compliance	N/A (USA)	Not applicable under USA tax framework
Environmental Compliance	Fully Compliant	EPA permits held; no material penalties
Corporate Governance	Fully Compliant	Independent board; NASDAQ listing standards met

6. Customer & Supplier Risk Assessment

Tesla Inc.'s credit risk is mitigated by its diversified portfolio of high-quality customers and suppliers. The company's top customers include Fortune 500 companies such as Amazon.com, Inc., Ford Motor Company, and Apple Inc., which collectively account for 45% of Tesla's revenue. These relationships are governed by long-term contracts (average tenure: 5 years) with favorable payment terms (net 30-60 days).

Tesla's supplier base is equally robust, with strategic partnerships with industry leaders such as Panasonic Corporation (battery cells), CATL (lithium-ion batteries), and BHP Group (raw materials). Supplier contracts include volume-based pricing agreements and just-in-time inventory provisions, reducing supply chain risk. Tesla's supplier concentration risk is low, with no single supplier accounting for more than 15% of total procurement spend.

Entity Type	Top Partners	Contractual Terms	Risk Rating
Customers	Amazon, Ford, Apple, GM	Long-term contracts (5+ years); Net 30-60	Low
Suppliers	Panasonic, CATL, LG Chem, BHP	Volume-based pricing; JIT inventory	Low

7. Credit Limit Recommendation & Underwriting Summary

Based on Tesla Inc.'s financial strength, credit history, and risk profile, the recommended credit limit for this application is **\$25 million**. This limit aligns with Tesla's revenue (\$96.774 billion), EBITDA (\$15 billion), and existing debt obligations (\$12.5 billion), ensuring a prudent debt-to-EBITDA ratio of 1.5 post-approval.

Key underwriting considerations include:

- **Financial Health**: Tesla's AA- credit score, strong liquidity (current ratio: 1.8), and consistent profitability (EBITDA margin: 15.5%) support the requested limit.
- **Repayment Capacity**: The company's DSCR of 3.8 and cash reserves of \$22 billion provide ample coverage for debt servicing.
- **Market Position**: Tesla's leadership in the electric vehicle and energy sectors, coupled with long-term customer/supplier contracts, reduces business risk.
- **Compliance**: Full adherence to legal, tax, and environmental regulations further de-risks the credit exposure.

Underwriting Metric	Value	Benchmark
Requested Credit Limit	\$25 million	N/A
Debt-to-EBITDA Ratio (Post-Approval)	1.5	< 2.5

Underwriting Metric	Value	Benchmark
Debt Servicing Coverage Ratio (DSCR)	3.8	> 1.5
Credit Score	AA-	Investment Grade
